

Date: 7 Nov 2005

We the Amtek D&D committees, would like to thank Des D Mel team for their best effort in making the success of the Amtek 35th anniversary Dinner & Dance held on 29 Oct 2005, a memorable and wonderful evening. We have received very positive feedback on the D&D event. Everyone was delighted. Let me mentions a few key areas of delights:

1. The pyrotechnic and laser effect was more spectacular compared to our previous D&D event.
2. Coordination work during the event was very well managed and organized.
3. Your team handled last minutes request by our D&D committee without giving a NO answer very professional.
4. The whole evening was fill with excitement and with great entertaining value.
5. MC Mr Desmond Lim was amazing in his illusion performance and his creative commentary and jokes.
6. Mr Adam for his contribution and suggestion on the event schedule running sequencing.
7. Ming the Suzie Wong performance delighted by our VIP guest with the good selection of the song and singing.
8. The stage game was fun and enjoyable.
9. The arrangement of the stage and prop was good. They was no compliant on the sound was too loud and the prop was blocking the view.
10. The chronograph for the MTV and commercial was well done. Everybody is very happy about it. Thank to Ming and Adam for the co-ordination and creative idea.

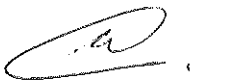

The best of all, the team did manage to accommodate most of our request without much of the hesitation. The planning before the event and during the event showed serious commitment. Follow up of the event was closely monitor by one and only communication channel, Adam. He did a good job in ensuring every single detail is taken care off. He is like an alarm clock, reminding me of what and when.

Amtek Engineering Ltd would like to thank you for the full support on our Care and Share week. Your contribution was very much appreciated by us, in providing the sound system and manpower for the day event. Without the sound system, the event for the day would not be so lively and wonderful. Your commitment has shown us that we are ready for long terms partnership.

Finally, I the Chairman of the Amtek D&D committee would like to thank you, Adam and Ming for the wonderful time working together. I do learn a few tricks on how to be more creative in making an event more fun that just a normal Dinner & Dance.

Keep it up Des D Mel team, hope someday we can be partner again for other event.

Best Regards

Sunny Lee
Chairman of the D&D Committee
